4701 StaticWisk Anti-static brush 140mm
380   Tacking Iron 240v Polished flat smooth tip
924   Foam blanket 5mm 2000 x 1150mm, best for HGP vacuum presses
922   Foam blanket 13mm 2000 x 1150mm, best on HGP to press the
      laminating film into the surface texture of the canvas

Dust Cover Cloths for Presses are essential

For all cold or hot mounting a dust-free work area will help ensure quality work. A dust-proof fabric is ideal. If it's for a hot press, only place it over the machine when it is switched off and cooled down.

3143
3144

Brayer Roller
With care, smaller mounting jobs can be done with Twin-release adhesive film and these Brayer Rollers

Hand-operated Roller Laminators
A low-cost way to start cold mounting and over-laminating

6271 ▷ 650mm
tba ▷ 880mm

Powered Roller Laminators
Give the important steady feed of the materials

Wide-format Laminators
Come in many sizes. A 1600mm / 62" can do very big work.

Single knob pressure adjustment

Technical Support & Training in **Hot** and **Cold** Mounting by LION

If you have a press the same or similar to any of those shown, the LION Tech Team will try to help you resolve any issues which may be prevent it being used. By appointment, they can also do refresher training. Email: techserve@lionpic.co.uk

The book **'The Mounting & Laminating Handbook'** by Chris Paschke CPF GCF, is truly the bible for all kinds of mounting; hot, cold and conservation. Just a couple of extra jobs will cover its cost. 3771
